Welcome to the First Edition of our new Viking Girl Series! As you can see, we have given VG a rehaul and redone her old worksheets and added new!

We hope you enjoy her as much as we enjoyed creating her. We hope to give you lots of booklets to enjoy over the coming years, if there is something you would like us to create for you let us know @ wauirehqs@hotmail.com

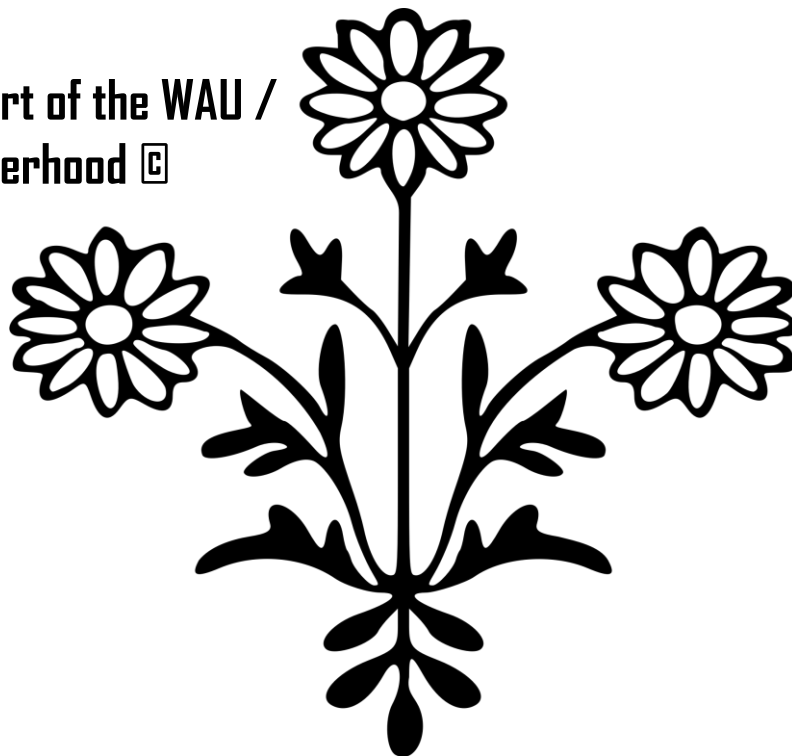

Let us tell you a little about VG and where she came from etc.

We haven't given her a name so that you can name her yourself! Her family which was her Mother, Father, Brother, Grandmother and Cat Siggy.

They travelled on a big boat to a country called Ireland, they have a small house in a Viking settlement and the year was 855, the city is known as Dyflin, from the Irish Duibhlinn, what we know as Dublin!

Life in Ireland is much different than the snow filled lands from where VG came from, in our next edition we will tell you more about her life in Dyflin!

Learning with Viking Girl Counting!

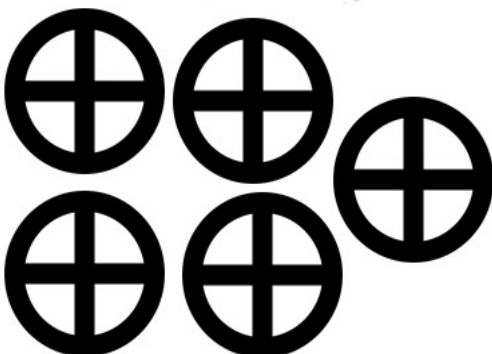

Count the number
of pictures in each group!

The God Odin has two Ravens.
Their names are Hugin (thought)
and Munin (memory).
How many Ravens
are pictured here?

Thor's Hammer was known
as Mjölhnir! How many
can you see? The hammer was forged
by dwarven blacksmiths named
Eitri, Brok, and Buri.

A sun cross, solar cross,
or wheel cross is a solar
symbol consisting of an equilateral cross
inside a circle. The design
is frequently found in the symbolism of
prehistoric cultures, particularly
during the Neolithic to Bronze
Age periods of European prehistory.

Math Solving

*Which number represents what image?
If you replace the pictures by numbers, you will get
the right resolution.*

$$\text{Image 1} + 3 = 9$$

$$10 - \text{Image 1} = \text{Image 2}$$

$$\text{Image 1} - \text{Image 2} = \text{Image 3}$$

$$\text{Image 1} + \text{Image 2} - \square = \text{Image 3}$$
