

READING COMPREHENSION

It was Science time in Miss Jones class. Stephanie and her three class mates reported their observations about the bird in the cage.

They described the bird while their classmates watched and listened. They reported the characteristics of the birds such as what they eat, drink, and what they like to do. After the report, the class asked some questions about the report. Stephanies group was able to answer their questions.

1. Whose group will report?
2. What was their report about?
3. Where did they get their report?
4. Where were the birds?
5. What did their classmates do after their report?
