

WOMEN FOR ARYAN UNITY

THE TRUTH AT LAST!

For a number of years now the general public has been saturated with a tremendous amount of negative publicity regarding the White civil right's movement, and particularly the skinhead phenomenon. For those who violently oppose the white right's struggle, the standard rallying battle cry has usually been to oppose ignorance and closed mindedness to destroy racism. To call those engaged in White right's activities closed minded or ignorant is absolutely absurd, and in many cases, hypocritical. Ask yourself, if you are opposed to White right's or skinhead activities, on what do you base your bigotry? Have you ever sampled any pro-White literature or even talked to a racially conscious skinhead? Be honest now! For interest's sake, did you know that White pride skinheads are totally opposed to such practices?

* Drugs

* The Abuse of the Environment

* Foreign Economic Control

Put simply, White pride skinheads believe that the White race has become a global minority, and we, as Whites, not only have a right, but a duty to protect ourselves and our interests. Ask yourself a simple question: if racial self-determination is great for non-Whites, then why cannot Whites engage in the same activities, without being cast as hate mongers and bigots? Always keep in mind this simple fact: racism is a two way street!
